Guns of French Warships Bombard Tribesmen.

GENERAL UPRISING FEARED

Agitators Are Inciting the Natives to Revolt—Death to Europeans Is the Slogan—Foreigners Seek Safety in Flight.

Casa Blanca, Aug. 22.—The Arabs have delivered another attack upon the French forces under General Drude, encamped outside the town, but were repulsed with heavy losses, estimated at two thousand dead. The guns of the warships borbarded the advancing tribesmen.

A general uprising of the natives is expected.

The natives hate the Europeans and Christians and only wait a favorable opportunity to murder them and take their property.

Agitators are going about among the natives preaching death to Europeans and trying to excite them to a bloody revolt.

The dread of a rising of the warlike tribesmen of the Hinterland, of the coast and interior to carry out the ever popular idea of a holy war to exterminate the foreign infidels is ever present. The position at Rabat and Mogador is said to be very precarious. Alcazaar is threatened and fugitives from there have gone to Larache.

FOR COAST DEFENSE.

New Feature in Plans of the Joint Defense Board.

Washington, Aug. 22—Naval guns for coast defense are a new feature in plans of the joint defense board which has been brought to make use of these guns by the fact that there are not available at present at the places where they are needed a sufficient number of high power guns of the coast defense type to carry out the plans of the board and of the fortifications board as well, for the completion of the coast defense scheme in the United States and insular possessions.

As the army ordnance bureau is not able to supply the guns owing to lack of time and appropriations, it has fallen upon the navy to undertake the coast defense at Olongappo in the Philippines and the Guantanamo naval station in Cuba, both important points.

A naval gun and mount are not particularly well adapted for use in fortifications, but the naval officers with their useful resources have contrived to mount the guns of this type so as to make them effective weapons of defense, at least until they can be replaced by highly developed disappearing guns.

SOLDIER CREATES PANIC.

Faithful Fled in Fright from Mosque at Fez.

Tangier, Aug. 22.—A sensational incident occurred during the celebration of noonday prayers at the grand mosque of Idid at Fez, Tuesday.

A soldier suddenly shouted:

"Allah render our master, Moulay Mohammed, victorious!"

Mohammed is the sultan's brother, and as the public proclamation of a new sultan in a mosque while the sultan is living, is traditionally the signal for a revolution, the faithful, who were at prayers, fled in a fright into the streets, creating a general panic.

Eddy Case Withdrawn.

Concord, N. H., Aug. 22.—The Eddy case has been withdrawn. This action was taken on Wednesday and the announcement by counsel in the case created great surprise and sensational interest. The details of the withdrawal have not yet been made public.

Fee for John D.

Chicago, Aug. 22—John D. Rockefeller will receive $73.95 from the United States as his witness fee for testifying in the recent hearing before Judge Landis in this city.

CABINET CHANGES PROBABLE.

Possibility that Attorney General Bonaparte May Retire.

New York, Aug. 22.—The Journal of Comerce publishes a story forecasting the possible retirement of Attorney General Bonaparte from the cabinet. It says:

"According to important interests in this city very close to the administration, the usefulness of Attorney General Bonaparte as a member of the president's cabinet has culminated. It is not expected that immediate retirement will result for such action might be construed as a sign of weakening in the president's anti-trust policy, a construction particularly distasteful to Mr. Roosevelt, since not the slightest justification exists for it. But there is no question, according to excellent information, that the president is not in sympathy with the recent flippant and undignified attitude and the least doubtful legal procedure displayed by the attorney general, but is in all respects opposed to them."

The attorney general's policy, the Journal of Commerce says, it is understood, is condemned by all the president's most trusted advisors, and it adds there is excellent reason to believe some important changes in the cabinet would constitute a protest against executive indorsement of Mr. Bonaparte and his program.

SWALLOWED HAT PIN.

Woman Was Startled by the Ringing of Telephone Bell.

Chicago, Aug. 22.—Startled by the sharp ringing of a telephone bell near the mirror before which she was dressing for an automobile ride, Mrs. C. G. Ferris, of Detroit, wife of a member of the well known family of that name, swallowed a hat pin five inches in length, in her room at the Auditorium Annex, and for 24 hours her husband and friends feared an operation would be necessary to save her life.

Physicians discovered with the aid of X-rays that the pin had reached the woman's intestines, having passed through the esophagus. They decided not to risk an operation at the time, but recourse to the knife may become necessary later.

In the meantime Mrs. Ferris has been ordered to lead a quiet life, free from excitement of automobiling and all other forms of social diversion.

TOUCHED LIVE WIRE.

Boy Thrown From Tree and Breaks His Neck.

Lithonia, Ga., Aug. 22.—Henry Brown, the 14-year-old son of R. R. Brown, a prominent farmer living one half mile west of Lithonia, fell out of a sweet gum tree Tuesday afternoon and broke his neck. Henry, in company with his small brother, 8 years old, it seems, climbed up in the tree. The electric line belonging to the Panola Light and Power company, which runs from the plant to Lithonia, passes through the branches of the tree.

The boys, in some way, caught hold of the live wire and the force of the shock knocked both of them loose and both fell to the ground, breaking the neck of Henry. The fall did not hurt the younger brother, but the wire burned his hands very badly.

Nurserymen's Association.

Richmond, Va., Aug. 22.—The Southern Nurserymen's association has adjourned, to meet in Atlanta, Aug. 19 and 20, 1908. This, the tenth annual meeting to be held here, in the Jefferson hotel, was one of the best in the history of the association, and the members all seem well pleased with the results attained.

106 Miners Are Killed.

Berlin, Aug. 22.—The directors of the Shantung Mining comapny has received a message from Tain Tsu announcing that an explosion of dynamit eand occurred under ground in the Fangtse mines, resulting in three Germans and 103 Chinese being instantly killed.

Steeple Jack's Tragic Death.

London, Aug. 22.—John Goldie, a famous steeple jack, met death by a fall from the Tower chimney, said to be the highest in the world. The chimney is 448 feet high.

NO CHANGE IN POLICY

Criminal Rich to Be Pursued by Roosevelt.

A PLAIN NOTICE IS SERVED

In His Speech at Provincetown, the President Says Corporate Evil Doers Will Continue To Be Brought to Book.

Provincetown, Mass., Aug. 22—The laying of the cornerstone of the Cape Cod Pilgrims Memorial monument here gave President Roosevelt his first opportunity of the summer to break the silence upon public questions and his forty-minute speech, which he delivered from a platform on top of Town Hill, was one of vigor and strongness upon matters of national importance.

The feature of his address was his advocacy of a national incorporation law and his stand in relation to violators of the law, especially corporations.

With emphasis he declared that the administration would not waver in its determination to punish certain malefactors of great wealth. Continuing, he said:

"There will be no change in the policy we have steadily pursued; no let-up in the effort to secure an honest observance of the law, for I regard this contest as one to determine who shall rule this government, the people through their governmental agents, or a few ruthless and determined men whose wealth make them particularly formidable, because they hide behind the breastwowrks of corporate organization."

The president declared that the government would undertake no action of a vindictive type, and above all, no action which would inflict great suffering upon innocent stockholders and upon the public as a whole. He said that the government policy in its ultimate analysis meant a healthy and prosperous expansion of the business activities of honest business men and honest corporations.

DRIVING WHEEL BURST.

Peculiar Accident Occurs on the Georgia Southern Road.

Valdosta, Ga., Aug. 22.—An unusual and peculiar accident occurred on the Georgia Southern and Florida railroad in the bursting of a driving wheel on a rapidly moving train, which broke the leg of Engineer Smith and delayed the train for about six hours.

The accident occurred midway between Melrose and Lake Park, while the train was running at a speed of nearly fifty miles an hour.

There was no intimation of the trouble, and the first the engineer knew of it was when, with a terrific crash, a portion of the bursted wheel flew up into the cab, breaking his ankle and almost completely wrecking that side of the locomotive. A piece of the flying wheel rim struck the airbrake chest, causing the brakes to be thrown on every wheel on the train, and bringing it to a very sudden stop.

With the exception of Engineer Smith no one else was injured.

$250,000 Stolen from Mail Car.

Lincoln, Neb., Aug. 22.—Taree registered mail sacks containing about a quarter of a million dollars, disappeared from the Burlington train between Denver and Oxford., Neb, on last Sunday night, and the postoffice officials have just made the theft public. The train left Denver with seven sacks, and but four remained when it was discovered. Detectives and the postoffice officials are at work on the case.

Files Suit for $30,000.

Atlanta, Aug. 22—Ex-Governor Terrell filed, for the first time since he has resumed law practice, a damage suit in the superior court Tuesday for a client, Mrs. Mary Ina Sutton, who sues the Southern railway for $30,000, her husband having been killed in a wreck near this city on May 24.

ALLEGE CRUEL TREATMENT.

Testimony Before Investigating Committee of Alabama Asylum.

Montgomery, Ala., Aug. 22.—At the meeting of the insane hospital investigating committee of the legislature here several witnesses swore to cruel treatment and lack of attention. [illegible] tion.

All of the witnesses were former patients of the institution, and swore that they had been beaten and kicked, and, at times, almost killed.

One man said he was beaten every day for three weeks; another said he knew of a case of a man who had been killed. Others testified that they were stinted in food and left in cold halls, and often kicked in the stomach and side. The hearing was not so sensational as has been the case in the past.

The witnesses went over much of the ground that has been threshed and told of much the same alleged cruelties.

The next meeting of the committee will be Friday in Tuscaloosa, at the asylum. Senator Sprains has resigned from the committee.

TALK OF EXTRA SESSION.

Georgia Legislature May Be Recalled to Atlanta.

Atlanta, Aug. 22—There still lingers about the capitol some talk of an extra session of the general assembly that will not down.

It comes in connection with the failure of the legislature to make provision for the state agricultural college at Athens, and the District Agricultural schools which represent an aggregate of $700,000 to $800,000 of state property to be used for educational purposes, but which cannot be so used without maintenance funds.

If the general assembly had passed the bill increasing the fertilizer inspection fee from 10 to 25 cents a ton, provision would thus have been made for taking care of these important institutions.

Not only did this measure fail to go through, but the legislature did not make any provision for these institutions in the general appropriations bill.

The governor has given out no intimation of what he proposes to do in the matter, but will make a thorough examination of the appropriations bill before acting, it is said.

STORY OF PROGRESS.

Many New Enterprises for Georgia and Alabama.

Columbus, Ga., Aug. 22.—Reports for the past seven days tell an uninterrupted and vigorous story of continued investment in industrial and construction enterprises in Georgia and Alabama, and one which illustrates with greater force than that of theoretical argument that there has been no recent legislative enactment in either state to make capital timid.

The figures which are given this week are large. Some of them are: A $100,000 lumber company, Etowah county, Alabama; an expenditure of $200,000 for sites for railroad terminals, Birmingham(Ala.; $100,000 dock, Savannah, Ga.; $100,000 company to build overall factory, Birmingham: $100,000 to build electric street railway, Brunswick Ga.; $50,000 company to develop mineral lands near Atalla, Ala.; steel plant enlargement, Gadsden, Ala., and 22 new corporations with total minimum capital stock of $364,700.

BOY PLAYED HANGING.

His Sport Had a Fatal Termination.

Unity, Wis., Aug. 22.—While attempting to imitate the hanging of a criminal about [illegible] he had read, Carl Justman, the ten year old son of Louis Justman, lost his life.

The little fellow was playing about the barn while his father was hauling in grain. When the men returned from the field they found the boy hanging from one of the barn posts by a short piece of rope attached to a staple.

The supposition is that the little fellow was "playing hangman" with the rope fastened around his neck, and fell off the beam upon which he was standing.

KENTUCKY CAMPAIGN

Republicans to Make the Fight of Their Lives This Year.

LINES ARE STRONGLY DRAWN

G. O. P. Hopes to Land Liquor Vote, While the Democrats (on the Other Hand) Stand Squarely Upon Temperance Platform.

Louisville, Ky., Aug. 22.—The Republicans will make the fight of their lives for victory in Kentucky this year, as success means a United States senator, and they will bring numerous speakers of national reputation into the state. They have straddled the burning issue—temperance—and hope to land the liquor vote and a good sprinkling of the temperance vote.

On the other hand, the Democrats stand squarely upon the temperance platform and will force this issue from start to finish.

Inasmuch as two-thirds of the counties in the state have adopted the temperance idea and the sentiment seems to be growing, the Democrats appear to have the advantage. However, they will get into the fight a bit late—the campaign not opening until next month, and the intense strife in Louisville will prove a handicap. Judge S. W. Hager, the Democratic nominee, begins a tour of the state, accompanied by John Hendricks, Democratic nominee for attorney general, on September [illegible].

These two men will follow the lead of Candidate Wilson, and as Hendricks is one of the most noted campaigners in the state, the trail will no doubt be kept warm.

The Democrats hope to induce U. S. Senator Jas. B. McCreary to take the stump in behalf of the ticket, but the success of the move is an open doubt. The feeling between McCreary and Governor Beckham has not been particularly cordial since the former forced senatorial fight with the Democratic party three years before the term of the latter will expire, and secured the upper hand.

The events which culminated in the assassination of Governor Goebel, being referred to by the Democrats in their literature, the "disgraceful reign of Taylor" and the "chaotic condition" in which the state was left by him, is frequently referred to. The fact that Taylor has refused to return to Kentucky to testify in the trial of Caleb Powers, charged with complicity in the killing of Goebel, despite the fact that he was promised immunity, is also being used by the democrats. They say that this has done much to convince the people of the state of his guilt.

Water of Stocks Made Impossible.

New York, Aug. 22.—Stock watering and over-capitalization by public corporations in this city will practically be an impossibility hereafter as the result of a new rule adopted by the public service commission. The rule serves notice on such companies that hereafter, to make any issues in the capital they will have to show their books open, and that the minute details will be required to be given before new bond or share issues will be even considered.

Anti-Jug Law in Lithonia.

Lithonia, Ga., Aug. 22—The mayor and town council of Lithonia, acting under an amendment to their town charter passed at the last session of the legislature, have passed an ordinance making it a violation of the town law for any partnership, company or any person or persons to deliver or cause to be delivered in Lithonia, any whisky, wine, beer or other intoxicants. They also passed a similar ordinance on persons receiving any whisky or other intoxicants.

Meldrim Resigns as Colonel.

Saavnnah, Ga., Aug. 22.—Colonel Peter W. Meldrim, commanding the first regiment of cavalry, has resigned owing to a pressure of business and in his stead Lieutenant Colonel A. Gordon Cassels will in all probability be named.

BOARD PUBLIC WORKS SIGNS UP CONTRACT

Work Will Begin at Once on Lateral Sewerage Connections.

SQUARED UP WITH BEEMAN

On Contract for Main Sewerage System, Which Has Been Completed, Passed On and Pronounced First-Class in Every Respect.

The Board of Public Works met on Wednesday evening, there being present the only three members of the board now in the city—J. H. Vidal, H. E. Taylor and E. J. Baird.

The meeting was called for the purpose of signing up the contract, etc., with F. H. Beeman, the successful bidder for the lateral sewer connections, and after that was accomplished the board adjourned until Thursday evening.

The board met Thursday evening, in compliance with adjournment of Wednesday.

The city engineer then made his report in which he stated that he had made a thorough inspection of the main sewer system, recently completed, and that he found the same to be constructed perfectly, and in compliance with the specifications of the contract.

This report was received, whereupon the board proceeded to a final settlement for the plant with F. H. Beeman, the contracto..

Contractor Beeman states that he will begin at once the work of laying lateral connections. A clause in the contract provides that work shall begin within ten days after the signing of same, but Contractor Beeman is now ready, and will not require that time. The contract provides also that the work must be completed within six months.

THE COUNTY NORMAL.

Enrollment Continues to Increase—Much Good Work Being Done.

The County Normal which is now in session at the Gainesville Graded and High School building, continues to increase in both interest and enrollment, and Prof. W. H. Cassels, the principal, states that much good work is being accomplished.

The latest additions to the roll are Miss Lucy McCraw of Farmville; Miss Sarah Rice of Charlotte Court House, Va., and Miss Elsie Davis of Big Rock, Ill.

Miss McCraw has been assigned to the Traxler school, Miss Rice will probably go to Haynesworth, while Miss Rice will assist on the faculty of the Waldo High School.

Were Also Good, Being Better Than at Any Corresponding Period for Several Years—All Banks Report a Prosperous All-Round Business.

"We feel very much gratified over the business of the Gainesville National for the first month," remarked Cashier Charles A. Faircloth to The Sun representative Thursday afternoon, just after the close of business. "We have been open for business just one month today, and our books will show deposits amounting to more than $70,000, which is good enough for any 'youngster' of only a month old" Mr. Faircloth concluded.

The Gainesville National has not yet gotten its interior in shape, and workmen are engaged steadily in laying the handsome tiling floor, finishing up the walls, etc., but, notwithstanding this fact, the new institution is enjoying a fine patronage.

This is the best evidence that this country was never more prosperous, as all four banks of the city never enjoyed a more prosperous season, President Thomas of the Dutton Bank, Cashier Taylor of the First National and Messrs Phifer Bros., bankers, reporting fine business for the month just closing.

OFF TO FORT PERRY.

The Florida Rifle Team Left Jacksonville Wednesday Night.

The Florida rifle team which will participate in the National contest at Fort Perry, Ohio, and which has been in training at the State range in St. Augustine for the past few days, left Jacksonville Wednesday night in a tourist sleeper, and expect to reach Fort Perry some time during Saturday.

This team comprises Colonel Carlton, coach; Major Yerkes, Capt. J. W. Blanding, Capt. H. Williams, Lieut. Potter, Lieutenant Riley, Sergeant H. D. Davies, Corporal Hinch and Privates H. M. Snow, H. J. Jackson, J. H. Lynn, Kitchen and Pinkoson.

General Maxwell had been assigned as team captain, but owing to his inability to accompany the team, the position fell to the lot of Captain Blanding. General Maxwell expects to join the team later.

When the team left Jacksonville the members were well supplied with souvenirs, including a number of young alligators, which the boys took along to present to members of teams from other States.

THE CITY COUNCIL.

Ordinance Regulating Drainage Passed on Final Reading.

At an adjourned meeting of City Council, held Wednesday afternoon, the ordinance regulating the plumbing and house-drainage was placed upon its third reading and passed, including the title. It will therefore become a law as soon as it has received the signature of Mayor Thomas.

This ordinance was a lengthy document, containing forty-seven sections, and it required Clerk Dell nearly two hours to complete the reading of same, each section being subject to amendment, etc.

At this meeting a request of B. R. Colson, which was presented in the nature of a resolution to accept a plat of College Park as same had been drafted by the College Park Co., brought about considerable discussion. The question, however, finally resulted in a motion of Alderman Vidal that the matter be referred to the city attorney for his written opinion as to how to proceed.

The Council then adjourned.

JUDGE SYD CARTER BRINGS GOOD NEWS

Says Work on Science Hall At University Will Begin Soon.

FUNDS WILL BE AVAILABLE.

Boards of State Institutions and Control Met in Joint Session in Tallahassee Wednesday, and Everything Worked Harmoniously.

Judge Syd L. Carter, who passed through the city from Tallahassee on a brief visit to his family Friday, left in the afternoon for the Everglades, where he will investigate the work being done under the direction of the trustees of the Internal Improvement Fund.

The representative of The Sun called on Jugde Carter, and found him in his usual good mood.

Judge Carter stated that at a meeting of the Board of State Institutions with the Board of Control, held in Tallahassee last Wednesday morning, all difficulties were harmonized, and matters in reference to the State schools were now running smoothly.

"The building to replace the burned dormitory of the Women's College at Tallahassee will be replaced at once," Judge Carter declared. "Also the work on the campus at the University will proceed to a finish, and the Board of Control will commence the erection of Science Hall on the University grounds early in the spring."

It is confidently believed, says Jugde Carter, that there will be sufficient funds available within the year to take care of all the school appropriation, as, largely through the efforts of Alachua's representation, the school appropriations have preference over all other special appropriations.

Employers Defer Action in Organizing a National Federation.

New York, Aug. 22.—Delegates from various manufacturers' and employers' associations met here and discussed the proposition to form a national federation, which shall have for its purpose the furtherance of peace in the industrial world by combining the efforts of all the employing interests.

The meeting was held behind closed doors at the Waldorf-Astoria.

After a general discussion of the proposition it was decided to adjourn in order to permit the delegates to return to their homes and consult with the organizations which they represent regarding the projected national federation.

She'll Burst; Soldiers Mangled.

New York, Aug. 22.—The accidental explosion of three nineteen-pound shells in the ordnance storehouse of Fort Totten, at Willet's Point, L. I., severely injured three artillerymen, who were unloading shells. William B. Lank, a private of the One Hundred and First company, Coast artillery, is expected to die. Private Snoizer, also of the same company, and Private Alpha, of the Eighty-second company, Coast artillery, were injured, but less seriously. The cause of the explosion is unknown, but it is believed that one shell first exploded, setting off the others.

FATAL TOOTH PULLING.

Physicians Think Spinal Column Was Broken by Dentist.

Chicago, Aug. 21.—George Davis, 38 years of age, died in the County hospital Tuesday night of what was diagnosed by the physicians as a broken neck, probably caused by a dentist's efforts to pull a tooth.

Davis came to the hospital one week ago complaining of a pain in his neck. He told the physicians at the hospital that he had gone to a dentist to have a tooth extracted. The tooth was difficult to extract and Davis said that the dentist had jerked him severely, and it is believed by the physicians that the dentist dislocated a portion of the spinal column.

Counties Show Gains.

Atlanta, Aug. 22.—All but three Georgia counties have sent their tax digest to the comptroller general. The returns from 143 counties show net gains over 1906 of $38,931,913, and the remaining three counties to be heard from are Bartow, Burke and McIntosh. It is not thought now that the gains in these will carry the total quite to the $40,000,000 mark, but it will come pretty close to it.

The struggling author boldly entered the editorial sanctum.

"I have come with my latest story," he announced.

"That so?" ejaculated the busy editor. "Let us hear how it runs."

But the busy editor reached for the clipping shears.

A Startling Operation.

A startling real estate operation is noted in the following description in a deed on record in a certain county of North Carolina, copied unchanged from the book of deeds, with the exception only of the name of the unfortunate landowner: "Beginning at Beck's south corner running thence north fifty feet; thence west fifty feet; thence south fifty feet; thence east fifty feet to beginning, this being a plot of land fifty feet square cut from the back end of the said Pemina Jones."

THE NATIONAL CAPITAL

Washington, D. C., August 22.—There appears to be a growing feeling that the agitation campaign against the trusts should be called off and an inventory taken of the situation as it is today. It is believed that a continuance of the agitation will beget such fear on the part of capital represented by the investing public that a panic may result with its attending financial disasters. This feeling is being accentuated by the fact that sound and stable securities are now beginning to feel the effect of the uncertainty over the situation. Needless to say the financiers of the country would welcome such a change of course. But it is a serious question whether things have not gone so far that there can now be no check. The astounding revelations of the past few years of graft and corruption in official circles and the exposure of the methods of the predatory trusts and piratical corporations have so awakened the public conscience and fostered the feeling of outraged individual rights that there is now a deep-seated determination by the people to have a general house-cleaning. President Roosevelt's repeated dissertations on personal, political and business honesty have worked as a leaven, but the people are now keenly alive to their rights and their powers, as exampled, for instance, by the vigorous efforts of the legislatures of many States to remedy matters. We are, it is believed, on the verge of a social and business revolution which will place in power only such representatives of the people as have shown their worth, and which will eliminate the harmful corporations and do away with machine organizations.

This, then, is likely to result in two distinct tides of opposing political sentiments, one comprising the West and the South and the masses of the large cities, insisting upon a vigorous prosecution of the trusts, and the other made up of the East and the business interests, clamoring for more conservative action. It would, therefore, not be surprising to see two new political parties—the radicals and the conservatives—have their inception in such a situation. In such an event, party lines would be forgotten, and Democrats would be found voting with Republicans, and vice versa.

The telegraph operators of the country are now basking in the limelight of popular attention. Their tie-up appears to be very complete, while, of course, the business men and the general public are the innocent sufferers, as usual. Will history repeat itself, and the great strike of 1907 go down to defeat, as was the case in 1883? Let it be hoped that after the first enthusiasm wears off sane counsel will prevail on both sides, and the arbitration will result in justice to the companies, the operators, and the general public.

Apropos of the strike, the Department of Commerce and Labor has just completed a compilation of strikes and lockouts throughout the country during the last five years, from which it appears that the employes succeeded in winning 47.94 per cent. of the strikes, and the employers who locked out their men won 57.29 per cent. of the cases. There thus appears to be even chances of either side winning.

One topic of interest that will be the subject of much discussion among diplomatic circles this winter will be the contemplated federation of the five Central American republics under the government. Several conferences with this end in view have already been held and it is well understood that both the United States and the government of Mexico favor the project. If the thing goes through as anticipated there will be less trouble in the Panama region and an era of peace and prosperity will settle on the hitherto unsettled affairs of the Central American States.

The Interstate Commerce Commission will soon report upon the [illegible] and electrical possibilities of our railroads and it may be safely [illegible] the railroads will not escape. The roads are making strides in safety within as well as [illegible] Much may be gained by the [illegible] of the side entrance instead of the old end arrangement and the [illegible] of all passenger cars of steel construction so as to eliminate the possibility of fire. Let us hope that other [illegible] improvements will be considered without reference to the Interstate Commerce Commission, as such acts will do more to restore public confidence in railway travel than all the statutes that can be placed upon the books.

The late war between Russia and Japan is over. The Russian and Japanese Ambassadors over whom the State Department has had its hands full trying to keep separated came to the State Department together in relation to the treaty recently enacted by the respective countries. Both Ambassadors had come from their summer homes for the purpose of filing the treaty with the State Department and from the looks of things another war between the two countries is about two million years off.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the past two years. I have been taking many other kinds, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

REPUBLICAN BOSSES HAD A CONFERENCE

Coombs, Chubb and Cheney Were Closeted in Jacksonville.

THE U. S. JUDGESHIP MATTER

Is Supposed to Be the Question Under Consideration—These Leaders, Who Are Close to President, Confident of Sheppard's Appointment.

That the Republican State organization is earnest, faithful and persistent in the matter of carrying its point, is demonstrated by the frequent trips to Washington and other points, and the closeted sessions of the leaders of the organization.

The Metropolis of Wednesday has the following, which will prove of interest to the people of the Northern District of Florida:

"The Hon. J. N. Coombs of Apalachicola, Republican National Committeeman; the Hon. Henry S. Chubb of Gainesville, chairman of the Republican State Committee, and the Hon. John M. Cheney of Orlando, United States Attorney for the Southern District of Florida, were in conference at the Windsor Hotel in this city.

"Messrs Coombs and Chubb left this morning for their respective homes.

"The exact result of their private conference at the Windsor Hotel could not be learned. Mr. Coombs and Mr. Chubb arrived yesterday morning. Mr. Coombs had just returned from Washington, D. C., in the interest of the Hon. William B. Sheppard's candidacy for the United States Judgeship of the Northern District of Florida.

"Mr. Coombs is perfectly satisfied with the attitude of the Attorney-General toward Mr. Sheppard, and feels confident that the President will be guided by the Attorney-General in making the appointment.

"Messrs Coombs, Chubb and Cheney, who are all very close to the President, are all of the opinion that Mr. Sheppard will be the next United States Judge of the Northern District of Florida.,

"It, therefore, seems to be a foregone conclusion that Mr. Sheppard will get the place.

"The appointment will probably be made by the President at an early date."

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

ECZEMA NEARLY REACHED EYES

Disease Spread Over Whole Body—Face Was in Awful Condition—Itched So that Baby Could Not Sleep—Doctors and Home Remedies Failed—Mother in Despair.

CURED IN THREE WEEKS BY CUTICURA REMEDIES

"I take great pleasure in dropping you a line to tell you what a God-send Cuticura Remedies were for my baby. He was suffering from that terrible torture, eczema. It was all over his body in patches, but the worst was on his face and head. His face was awfully bad; the eczema extended up to the lower eyelids and I was just about sick for fear it would get into his eyes before I got it stopped. He cried and scratched all the time and could not sleep night or day from scratching. I took him to the best doctors, and one of them said that he would keep the disease till he got all of his teeth; but if I had depended on the doctors, I guess my boy would have been laid at rest by this time. My friends told me to try many kinds of remedies, and I pestered the child to death with all the different things, but could see no improvement. Finally I got discouraged, and was just about to give up all hope of his ever getting cured, when I read about the wonderful Cuticura Remedies, which came just in time to save my baby from the terrible torture. I used Cuticura Soap and Cuticura Ointment, and gave him Cuticura Resolvent, and I saw an improvement in three days, and in three weeks his skin was as clear as it could be. That was six or seven months ago, and I have not seen any return of the disease since. I should have written long ago, but I waited to see if it would return. I shall recommend the use of Cuticura from one end of the world to the other. Mrs. Maggie Smith, 314 W. Crosier St., Akron, O., July 24 and Aug. 11, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. UNMOVED BY MOTHER'S TEARS

Young Fowles Refuses to Throw Light Upon Burglary.

Lima, O., Aug. 22.—Though a mother's tears have been shed in pleading that he save himself by telling who planned the Hall Jewelry establishment, Karl C. Fowles has refused to give any information.

"I've done wrong and must pay the penalty," said the young man, in answer to his mother, who made a third visit to his cell at the county jail. Because of the pleadings of the aged mother, a wife and two children, and many relatives of the young man, who is a member of one of the best families, it is expected he will yet clear himself of any connection with the crime save receiving goods known to have been stolen, which he has confessed.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Evolution of the Raft.

The canoe was one of the earliest of boats, but it is not in line with the later growth. The ancestry of the modern boat begins with the log and is traced through the raft rather than through the canoe. By lashing together several logs it was found that larger burdens could be carried. Therefore the boat of a single log grew into one of several logs—a raft. By the time man had learned to make a raft we see he had learned something else—he had learned to row his boat along by pulling at an oar instead of pushing it along with a paddle. Rafts were used by nearly all the nations of antiquity. Herodotus, the father of history, tells us that they were in use in ancient Chaldea.—S. E. Forman in St. Nicholas.

CREATES SENSATION.

Railroad Commissioner J. M. Brown Suspended from Office.

Atlanta, Aug. 22.—Governor Hoke Smith Wednesday morning issued an order, to take immediate effect, suspending Commissioner Joseph M. Brown of the railroad commission from office and appointing Hon. Guyton McLendon to fill the vacancy on the commission.

Governor Smith's order suspends Commissioner Brown indefinitely and Mr. McLendon will serve during the remainder of his time. The order gives no specific reason for the suspension but simply cites the section of the code conferring the authority on the governor to suspend a commissioner who does not meet the demands of the office.

The naming of Hon. Guyton McLendon to a place on the commission to fill the vacancy made by Mr. Brown's summary suspension will meet with general approval, as he has already been elected to a place on the commission by the people and by his wide knowledge of rate making it fitted for the position.

The attitude of Commissioner Brown on all the important rate questions that have been before the commission is known to be the cause for his suspension.

The announcement of Commissioner Brown's suspension, which practically amounts to a dismissal from office, will create a profound sensation, as it is probably the first time in the history of the state that a governor ever exercised his authority to suspend an officer of a state board.

HETTY GREEN WINS.

Title to Property Valued at $150,000 in Toledo, Ohio.

Toledo, ..., Aug. 22.—By a decree of Judge H. W. Taylor, of the U. S. court, Hettie Green, the richest woman in America, will continue to "have and to hold" title to the property at the corner of Madison and Erie streets in this city. The property adjoins the new Nicholas building and is now valued at $150,000.

Months ago the firm of Merrill, Dodge & Jackson brought suit against Hettie Green in the United States District court, charging violation of contract. The contention was that they had, through an agent of Hettie Green, received an option on the property in question for $40,000.

The Nicholas building was not then built and the above price was considered a fair one for the property, consisting of 60 feet on Madison avenue and 150 feet on Erie street.

Judge Taylor finds that the Merrill, Dodge & Jackson Co. is not entitled to a specific performance of the contract, so the property remains in the hands of the woman capitalist.

From the first he had resisted all effort of the missionaries to induce him to abandon his ancient faith for Christianity. As he still had a large following who for his sake refused to recognize Christianity, his conversion was greatly desired. New Zealand's greatest bishop laid siege to the old heathen at Makola, that tree clad isle in Lake Rotura, to which the beautiful Hinemoa swam. For hours the bishop endeavored to win the priest over. But his powers of persuasion—how great these were is well known—for once failed utterly. Tohoto sat in moody silence. At length he lifted his head. "Hearken unto my words!" he said. "If you can do this, I will accept your God."

Then, picking up the dead leaf of a cabbage three which had fluttered to the ground, he held it out loosely between his fingers at arm's length. His withered body was naked to the hips; the sun was high in the heavens; no deception was possible. After repeating an incantation he invited his visitor to look. Lo, the leaf had become green! The strong minded, highly educated Englishman had no belief in either Tohoto or his powers, yet by some mental influence the decrepit Polynesian was able to make the virile white man believe that what he saw was a fresh green leaf, yet it was in reality still a dry brown one.

The end of the last of the tohungas was both singular and pathetic. On that terrible night in June, 1886, when the Pink and White Terraces were lost to New Zealand and darkness came over the land, Tohoto was sleeping at Wairoa village. He was buried beneath the rain of ashes, and it was seven days before he was dug out of the ruins of his hut. He was very feeble after his long confinement in a hole that must have been for a time scarcely less hot than an oven, and he was black with the ashes from the volcanic eruption. Yet had he been left alone he might have recovered, but they took him to the hospital at Roturua, where, probably in ignorance of the awful sacredness in which the head is held among Maoris and especially that of a tohunga, the white and matted hair and beard were cut off. It was the most terrible and degrading thing that could have happened to Tohoto. His personal tapu had been violated, and this, preying on his mind, killed him.

A Rigid Examination.

Colonel Alexander Gardiner, in his volume entitled "Soldier and Traveler," says that during a stay in Asia he was once suspected of being a Russian spy.

This was an accusation of great consequence, as Russians were very unpopular at the time, but the traveler who prostrate with fever and almost indifferent as to what might befall him.

Application was made to the khan of Khiva, and in a great state of anxiety as to the traveler's identity he deputed three learned men who had traveled over half the world to examine him. This was the abstruse and terrific examination with which they were satisfied:

"What are you?" asked they.

"An American," was the answer.

Still they were suspicious, and one man, a very enlightened scholar, offered as a crowning test this deep and conclusive geographical question:

"Could you go by land from America to England?"

"No," was the prompt reply, and the questioner, as much delighted at his own superior learning as at the traveler's integrity, declared that he was convinced. This was an American indeed.

"Listeners Seldom Hear," Etc.

Two elderly maiden sisters had long lived together—one gentle and sweet, the other acrid in temper and forbidding in appearance. The former was taken suddenly ill, and the other, anxious to know whether the doctors thought her sister would live—as she was desirous of acquiring the money she knew her gentle sister had willed her—hid behind a screen in the morning room, where the doctors soon after came down to consult.

"Well," asked Dr. Harris, "what do you think of her?"

"Think of her?" cried Dr. Brown. "Of all the antiquated, vinaigrette old hags ever created I think she is the very worst! What is Providence thinking of to inflict pain on that gentle soul upstairs and leave untouched a grim, withered caricature of humanity such as this other? Jump into my motor with me and we'll chat about our patient as we go."

And they [illegible], leaving the eavesdropper to [illegible] her hiding place as they retreated. Disturbed Bliss.

Taking No Chances.

The court appointed a young lawyer to defend a Georgia darky, but after the prisoner had looked the lawyer over he said:

"No, Mistah Judge, I reckon not. De las' time I got in de penitentiary I had a man dat look des lak him to defend me, so des leave him out de case en gimme ten years!"—Atlanta Constitution.

LEGAL ADVERTISEMENTS.

BANK NOTICE.

NO 98.

TREASURY DEPARTMENT
STATE OF FLORIDA.
Office of Comptroller, Tallahassee.

Whereas, by satisfactory evidence presented to the undersigned it has been made to appear that a banking association under the name of The Dutton Bank located at Gainesville, Florida, and organized under the laws of the State of Florida, has complied with all the provisions required to be complied with by the banking laws of the State of Florida before an association shall be authorized to commence the business of banking.

Now, Therefore, I, A. C. Croom, Comptroller of the State of Florida, by virtue of the authority vested in me by Section 3702 of the General Statutes of the State of Florida, certify that The Dutton Bank of Gainesville, in the County of Alachua and the State of Florida, is authorized to commence the business of banking under the name above given with a capital stock of seventy-five thousand dollars.

Given under my hand and seal of office this ninth day of July, A. D. one thousand and nine hundred seven.

[SEAL] A. C. CROOM,

WHEN NAPOLEON WALKED.

An Incident of the Tragic Retreat From Moscow.

It was on Nov. 25, at about 7 o'clock in the morning, when we saw the head of the column. The first we saw were generals, a few of whom were on horseback, but the majority on foot. The latter painfully dragged themselves along, almost all having their feet frozen and bound up in rags and pieces of sheepskin and dying of hunger. We then saw what was left of the cavalry of the guard. The emperor came next on foot, with a stick in his hand. He was muffled up in a large capote lined with fur and wore on his head an amaranthine velvet cap edged with black foxskin. On his right marched, also on foot, King Murat; on his left, Prince Eugene, viceroy of Italy; then Berthier, prince of Neufchatel; Ney, Mortier, Lefebvre and other marshals and generals whose corps had been partly destroyed.

They were followed by 700 to 800 officers and suboff'cers, marching in order and bearing in the greatest silence the eagles of the regiments to which they had belonged and that had so often led them to victory. They were the remnant of over 60,000 men. My poor Picart, who had not seen the army for a month, gazed on silently, but his convulsive movements showed only too well what he felt. I saw big tears roll down the cheeks and fall on his mustache, from which icicles were hanging. Then, turning to me, "Really, compatriot, I do not know whether I am asleep or awake; I weep because I have seen our emperor marching on foot, a stick in his hand—he that was so great and who has made us so proud!"—"Memoires of Sergeant Bourgogne."

FOREIGN MONEY.

A Showman's Experience With Counterfeit Coins in Naples.

"When you are abroad," said a tourist agent, "look out for counterfeit money. In France and Italy especially look out. There are a lot of small souled French and Italians who save up counterfeit money all the year to dump it on the tourist trade in the summer.

"I said to look out, but really that is impossible. An American tourist has his hands full just to count foreign money, with its centimes and lyres, its francs and centesimi, and when too often he is unable to count this money how can he detect counterfeits in it?

"Italy is the worst country, and it is safe to say that every tourist loses in bad money there 1 or 2 per cent of all that passes through his hands.

"When Buffalo Bill showed in Naples the audience was enormous, but the next day when the business manager went to bank the receipts of the night, lo and behold, over a thousand dollars in counterfeit money had been taken in.

"Buffalo Bill in person went and complained to the prefect, or chief of police.

"'They passed a thousand dollars on you in counterfeit?' said the prefect.

"'They did,' said Buffalo Bill bitterly.

"'Just like these Italians,' exclaimed the prefect. 'What a grand nation!'"—Exchange.

Thunder in Various Regions.

Java is said to be the region of the globe where it thunders oftenest, having thunderstorms ninety-seven days in the year. After it are Sumatra, with eighty-six days; Hindustan, with fifty-six; Borneo, with fifty-four; the Gold Coast, with fifty-two, and Rio de Janeiro, with fifty-one. In Europe, Italy occupies the first place, with thirty-eight days of thunder, while France and southern Russia have sixteen days. Great Britain and Switzerland have each seven days, and Norway has four. Thunder is rare at Cairo, being heard only three days in the year, and extremely rare in northern Turkestan and the polar regions.

The "Dandy Horse."

The father of the bicycle tribe, the "dandy horse," was invented in 1818 by Baron von Draise of Paris. It consisted of two wheels about thirty inches in diameter running one in the wake of the other and connected by a beam of wood, upon which, half way from each end, was a saddle or perch, an arm rest in front completing the machine. It was propelled by kicking the ground with the right and left foot alternately. It was from such a crude affair that the modern bicycle was slowly evolved.

Full of Grit.

"Fifty miles an hour, now," hissed the daring motorist as he gripped the steering wheel still more firmly. "Are you brave enough to stand it?"

"Yes; I am full of grit," replied the pretty girl as she swallowed another pint of dust.

Soft.

Cholly—I wish that I could find something to absorb my mind. Molly—Have you thought of trying blotting paper?

CUT THEM ALL OUT.

The Enemies One Is Likely to Meet In His Vocabulary.

"In the dictionary of fools we find 'I can't' very often, plenty of 'ifs' and lots of words like 'luck' and 'destiny' and phrases like 'If I only had time or a chance like other people!'"

Did you ever think that many of the words and phrases which you constantly use are your real enemies, that they leave those telltale pictures and black shadows on your soul?

How many times have you been kept from doing a good deed by such phrases as 'oh, I can't do that,' 'I am afraid' that it will not turn out well,' 'oh, I know I can't do that,' 'somebody else can do that a great deal better,' 'I am afraid to try,' 'I haven't the courage,' 'I fear I shall take cold or catch some disease if I do this or that?'

I believe that these two words, 'I can't,' have ruined more projects and have lost more ability among the weak of mediocrity than any other two words in our language.

"I am afraid of this or that" is a terrible hinderer, a terrible killer of ambition, a cooler of enthusiasm.

All achievement and all efficiency depend upon initiative and that is easily killed by the fear words, the words which express doubt and uncertainty.

"By thy words thou shalt be justified, and by thy words thou shalt be condemned."—Success.

VALUE OF WALKING.

Benefits to Be Derived From This Form of Exercise.

There is hardly an instance of a long lived man who has not been for the best part of his life a brisk walker and for some reason or other has had to take exercise pretty well every day.

Riding is all very well and so are other exercises, but there is nothing like a good walk, because it stimulates the blood and the muscles and necessitates being in the open air.

If those who complain of being stout would only think of this and never omit a daily constitutional they would be amply rewarded. It will keep them young and their figures presentable.

It is simply a remedy that no one heeds to. Sitting about in the open air is all very well and is far better than sitting in the house, but it does not keep you in good health.

It is quite another thing to overfatigue oneself. There is nothing better than to get into a healthy perspiration by walking. It is just like drinking a glass of cold water in the morning. It is so simple no one believes in it.

This may not suit everybody, but those it does suit it will keep in health.—Pittsburg Press.

Help the Editor.

An Oklahoma editor puts forth this plea: "My friend, help the editor in his wide eyed search for news. When your friends come to you, if you are not ashamed of it, tell him; when your wife gives a tea party, if you will have recovered from the effects of the gossip, drop in with the news; when a baby arrives fill your pockets with cigars and call; if you go to a party, steal some of the good things and leave 'em with the item in our sanctum. If your wife licks you, come in and let us see your scars and tender sympathy through the paper. If your mother-in-law has died, don't be bashful about it; give in all the commonplace news. In short, whatever makes you feel proud, sad, lonesome or glad submit it to our twenty-four carat wisdom and see our matted lock part and stand up on end with gratitude, which will pour from every pore with moisture from a dew besprinkled earth."—Topeka State-Journal.

The Bird Got Wise.

A gentleman by way of a joke placed a golf ball in the nest of his ancient parrot. Polly sat with exemplary patience on her novel egg and appeared pretty nearly heartbroken when the weeks went by and she found herself unrewarded. At last she could stand it no longer. A terrible screeching brought her owner downstairs at 4 o'clock in the morning.

"What's the matter, Polly?" he asked as he noticed that the bird's beak was chipped through trying to get at the interior.

"Matter!" screetched Polly. "Great Scott, I'm bunkered!"—London Telegraph.

Pedestrian Rights.

Only in Great Britain, so far as I know, does the law hold that a foot passenger has an equal right to the highway with the wheeled traffic and that it is the duty of the driver of the latter to avoid at all costs the former, even if he has to do so at considerable inconvenience and often danger. In other countries, on the contrary, it is the duty of the pedestrian to give way to the wheeled traffic.—Atlanta Constitution.

We never enjoy perfect happiness. Our most fortunate successes are mingled with sadness. Some anxieties always perplex the reality of our satisfaction.—Corneille.

John Shea Married to Miss Lizzie Sasey in Jacksonville Tuesday.

The Sun announced on last week's last Saturday that John Shea, the efficient linotype operator in the employ of this paper had gone to Jacksonville to take unto himself a wife, and The Metropolis of the 21st has the following, which will prove of interest here:

"Mr. John Shea, the efficient linotype operator of The Gainesville Sun, took unto himself a wife yesterday in the person of Miss Lizzie Sasey of Madisonville, and the ceremony having been performed in this city by the Rev. Father Mahler at the residence on East Duval street.

"Mr. Shea has been spending a couple of weeks in Jacksonville and was joined here yesterday by the prospective bride.

"Mr. Shea, although a comparative newcomer in Gainesville, has made many friends both there and in Jacksonville. He is a young man of excellent character, genial disposition, and is quite popular with those who have met him.

"The Sun and The Metropolis with all its friends join in extending congratulations to the newly wedded couple."

Mr. Shea's numerous friends in Gainesville will join The Sun in extending congratulations, with the wish that their life of connubial bliss will be a long one.

After spending a few days at Palm Beach, Mr. and Mrs. Shea will return to their future home here and they will be welcomed gladly.

MAN WAS BURNED SEVERELY

While Repairing Boiler Gus Tipple Received Painful Injury.

While repairing a boiler at the waterworks plant Thursday, Gus Tipple colored, an employe of the water works, who is well known in this city, was severely scalded by escaping steam, which came upon him suddenly through a broken joint.

Tipple was dazed and blinded by the escaping steam for an instant, and had it not been for his presence of mind he would have been cooked to death in a short while, but realizing the situation he immediately quit the boiler. As it was, however, he sustained most painful scalds which will confine him to his bed for several days.

Dr. Colson was summoned and rendered professional aid. He reports that the injuries while not dangerous are of a nature which will give the patient considerable pain for the next week or ten days.
